

Your Knox Trail Council is

GOING GREEN

Good environmental stewardship has been one of the foundations of the Boy Scouts of America since its inception. Teaching our Scouts about the environment and how to protect it has always been a part of our program. To help protect our environment the Knox Trail Council has decided to reduce the amount of printed materials we use. The council newsletter, calendar and brochures will now be available exclusively online. We will also be launching an email newsletter to keep you updated on what's going on in the council.

Please pass this information along to all the leaders and families in your unit.

Our Biggest Green Initiative Is - A REDUCTION IN PRINTING

With the increased use of the council's website, we will be taking our first green step by greatly reducing the amount of printed materials we use. Calendars, newsletters, brochures and dozens of other pieces will either not be printed at all or in greatly reduced numbers. By allowing our members access to these things online, and urging that they only print them when necessary, we can literally save tens of thousands of sheets of paper a year.

In an effort to keep you updated with the latest council news and information we will be launching an email newsletter. Go to our website www.ktc-bsa.org and sign-up today!

We hope you are as excited as we are about this initiative. Change isn't always easy. Some of us may have been used to receiving reams of papers from the council office and will now have to get used to going online for the information; However, we need to set the example for our youth and being good citizens of our planet is just one part of it.

Cubmaster, Scoutmaster or Committee Chairman, you are the only ones who received this mailing. Please pass this info along to all the leaders and families in your unit and have them sign-up for our email newsletter. Don't delay, do it today!
